^{1} Reflects actual overcollected balance as of June 30, 2021. All other amounts reflect projected activity and balances.

^{2} For the purpose of this exhibit, the estimated annual pension costs allocable to retail electric Operation and Maintenance ("O&M") expense has been distributed evenly by month. Beginning in 2021 with the conversion to the SAP enterpise software suite used by Dominion Energy, pension costs will be distributed based on the labor distribution for the month. Therefore, the monthly O&M amount will vary based on the distribution of labor.
